### FREQUENTLY ASKED QUESTIONS

#### What is Defining Gel?

Defining Gel is an intensive body contouring gel that hydrates the skin, reduces the appearance of cellulite and varicose veins, and firms areas such as the abdomen, back, legs, and upper arms.

#### What are the benefits of using defining Gel?

Defining Gel works with the Ultimate Body Applicator™ to maintain, enhance, and maximize your results. Like the Ultimate Body Applicator, Defining Gel improves skin texture and tightness, reducing the appearance of skin slackening, cellulite, and varicose veins. It hydrates, softens, tones, and firms for an all-over smoothness that gives you more youthful looking skin.

#### How often can I use Defining Gel?

Apply Defining Gel once or twice a day with a circular motion. Extra massaging will maximize the benefits to your skin. Your skin will be deeply hydrated, feel softer, and appear tightened, toned, and firmed! Results are progressive with continued use.

#### Do I use Defining Gel at the same time as I use an Ultimate Body Applicator?

Defining Gel is designed to enhance the tightening, toning, and firming results of the Ultimate Body Applicator. Do not apply Defining Gel before using the Ultimate Body Applicator, as the Ultimate Body Applicator works best on clean, dry skin. For maximum results, use Defining Gel twice a day on the days between your Ultimate Body Applicator treatments.

#### Does Defining Gel contain the same ingredients as the Ultimate Body Applicator?

Defining Gel contains a small amount of the properties found in the Applicators but also contains ingredients that can help to hydrate and firm all areas of your body. Like the Ultimate Body Applicator, Defining Gel is not intended for use on the face.

#### Can it be used alone or does it have to be used in conjunction with the Ultimate Body Applicator?

Defining Gel can be incorporated into your daily beauty regimen whether you use the Ultimate Body Applicator or not. However, your body will experience maximum results when you team up these two life-changing products.

#### Can I use Defining Gel on my face?

No, Defining Gel is formulated to tighten, tone, and firm the skin on the body only. The skin on the face requires more delicate treatment for long-term results. Instead, use Facial™, a comprehensive botanical formula that gently delivers dramatic results to the skin on the face. Facial deeply hydrates and nourishes the skin to minimize the appearance of wrinkles and fine lines in just 45 minutes.

#### Can I use Defining Gel if I am pregnant or nursing?

We suggest that you consult your physician prior to using any of our products if you are pregnant or nursing.
