DIRECTIONS

Adults take 2 tablets during or up to 60 minutes after each large meal. Drink at least 8 glasses of water daily.

ADVANCED FORMULA FAT FIGHTER™ WITH CARB INHIBITORS

FREQUENTLY ASKED QUESTIONS

How does Advanced Formula Fat Fighter Work?

Fat Fighter's active ingredient, NeOpuntia®, is derived from the prickly pear cactus, and it is the most powerful, gluten-free, kosher, and vegetarian fat-binding ingredient on the market today. Its natural fibers have lipophobic properties, binding to the fat from the foods in your stomach. As a result, some of the fat from the foods is not absorbed by your body, but rather excreted from your system naturally.

Fat Fighter also contains phaseolamin, a white kidney bean extract that acts as a carb inhibitor. The white kidney bean extract paralyzes the enzyme in your stomach that turns the starch from carbs into sugar during the digestive process. This prevents the body from absorbing some of those carbohydrates, and they are excreted naturally.

I have shellfish allergies. Can I use Advanced Formula Fat Fighter?

Fat Fighter does not contain shellfish. It is a vegetable-based product that is safe for daily use for those with shellfish allergies.

Can I take Advanced Formula Fat Fighter every day?

Yes, Fat Fighter is a vegetable-based product that is safe for daily use. We recommend you take one to two tablets 15 minutes to one hour after eating your two largest meals of the day or after snacks with high fat content.

When is the best time to take Advanced Formula Fat Fighter?

Because Fat Fighter works in the stomach to absorb fat and block carbs from the foods you've already eaten, take one to two tablets 15 minutes to one hour after eating your two largest meals of the day or after snacks with a higher fat content.

Can I take Advanced Formula Fat Fighter with other supplements or medications?

Because of its binding properties, Fat Fighter should not be taken at the same time as other supplements or medications. Allow one to two hours to pass between taking Fat Fighter and using other supplements or medications.

Can I give Advanced Formula Fat Fighter to my children?

Fat Fighter is designed for adult use and is not recommended for children. Always consult your pediatrician before giving any supplements to children.

Can I take Advanced Formula Fat Fighter if I am pregnant or nursing?

We suggest that you consult your physician prior to using any of our products if you are pregnant or nursing.
